Six Decades of Australian Manufacturing

Emro Products Pty Ltd (Emro) is an Australian, family owned, and operated company based on the Sunshine Coast, Queensland.

From humble beginnings manufacturing timber window hardware in 1958, we have become a leading wholesaler to Australian building industry retailers, including:

- National Distribution Warehouses
- Hardware Stores (retail and trade)
- Bathroom and Plumbing Stores
- Door Suppliers
- Locksmiths
- Staircase Manufacturers and Stair Contractors
- Disability Equipment Suppliers
- Marine Supply Stores
- Caravan & Recreational Vehicle Industry Manufacturers
- Specialist contract work for manufacturers

Under the Emro brand, we locally manufacture, import, and distribute, quality builders' hardware, stair and handrail brackets, grabs rails and independent living aids, tubing and fittings, shower tracks and rails, commercial washroom products, braille signs and marine accessories.

Our purpose-built premise on the Sunshine Coast houses a zinc die casting machine, secondary machining equipment, polishing room, electroplating line (chrome and gold), powder coating booth and welding station.

From here we manufacture an extensive range of builder's hardware, stair and handrail brackets, contract die cast works, and quality custom grab rails, shower tracks, and shower rails that meet our customer's specific requirements.

We have stockists and distributor partnerships throughout Australia and our products are available to the New Zealand market via our e-commerce store.

Quality, consistency, and reliability

Our commitment to complete customer satisfaction has always been core to our success. We continually strive to improve our reputation to ensure that quality, consistency, and reliability remain synonymous with us.

Sustainability

Sustainable practises are embedded in our processes to ensure we minimise our waste and our environmental impact. We convert scrap cardboard and boxes into filler packaging material, recycle and reuse clean water in our finishing machines, and melt and reuse zinc from product runners, overflows and spurs.

Emro Products Pty Ltd

ABN 93 009 968 987

Web: www.emro.com.au

We are proud to say that our cast stair and handrail brackets, a range of general builders' hardware, all marine accessories, and all custom orders are 100% Australian made.

Our skilled team can manufacture from scratch and/or easily transform and customise standard products into bespoke solutions that meet your specific requirements. Our team's goal is to exceed customer expectations for delivery, quality and functionality.

Die Casting

Die casting is a process of forcing molten metal (in our case, this is zinc) under high pressure into mould cavities. The die casting method is especially suited for mass production of small to medium sized parts.

As a member of the Australian Die Casting Association, in addition to casting our own products we have the capability to take on contract work for Australian businesses needing quality zinc die cast parts manufactured locally.

Powder Coating

We use a process called Electrostatic Spray Deposition (ESD). This method uses a gun for the delivery of powder. After the application of powder coating, the parts enter a curing oven where, with the addition of heat, the coating chemically reacts to produce an even, high-quality finish.

We offer a range of standard colours including Matte Black, Gloss Black, Monument, White, Silver, and Burnished Copper.

Electroplating

Electroplating is the process of depositing a metallic coating upon a negatively charged electrode by the passage of an electric current. Electroplating allows us to manufacture large quantities of chrome and gold plated product according to market needs and preferences. We use a rack plating method to ensure our quality is of the highest standard and consistency.

Our range of finishes

Looking for a different colour? Emro has access to the Dulux Architectural and Premium colour ranges, as well as Prismatic Powder.

Powder Coat

The powder coating process produces a long-lasting and durable, hard finish that is both protective and decorative.

Matte Black
2609129M

Gloss Black
2609132G

Matte Monument
2609066M

Gloss White
2601229G

Gloss Silver Glow
97184623

Flat Burnish Copper
9068185K

Electroplate

Electroplating has incredible protective properties and can be useful when it comes to protecting products from tarnishing and corrosion.

Artisan

Our artisan finishes are specially designed to add a unique finish to any space. Each piece is made to order and individually hand brushed at our Sunshine Coast facility.

Chrome Plated

Gold Plated

Brushed Gold

Satin Chrome

We do our best to ensure that our photos are as true to colour as possible. However, due to inconsistencies of various monitors, lighting sources, and digital photography, we cannot guarantee that the colour you see on your screen accurately portrays the true colour of the product. Screen images are intended as a guide only and should not be regarded as absolutely correct.

General Builders' Hardware

Emro has been manufacturing and distributing quality hardware products for the Australian market since 1958.

Our hardware products include, but are not limited to stainless steel hinges, iron hinges, handles, cabin hooks, hat and coat hooks, robe hooks, pad bolts, roller catches, push and pull plates, window spurs and bar chairs.

Architectural and Plastic Doorstops

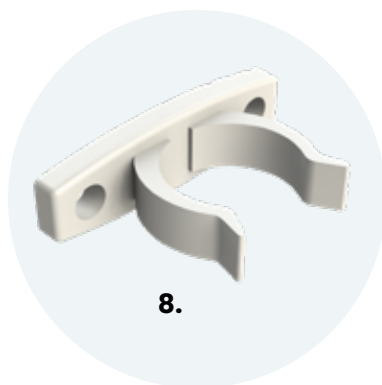

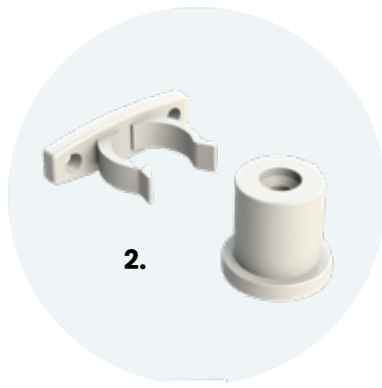

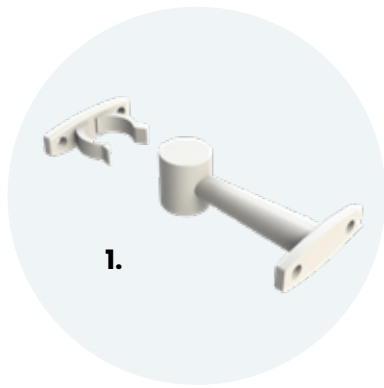

Emro has a wide range of door stops from plastic cushions and clips, to stainless steel architectural and magnetic door stops.

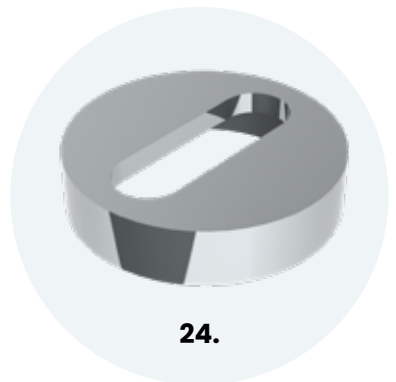

Our range is made up of round, half moon, pencil, rectangular and square.

They come in several finishes and colours and are designed to suit any application.

We are continually improving and adding to this range to meet the demands of both the residential and commercial markets.

Grab Rails and Independent Living

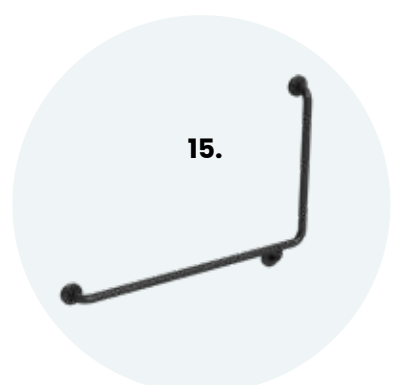

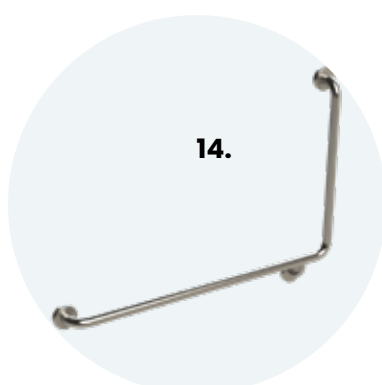

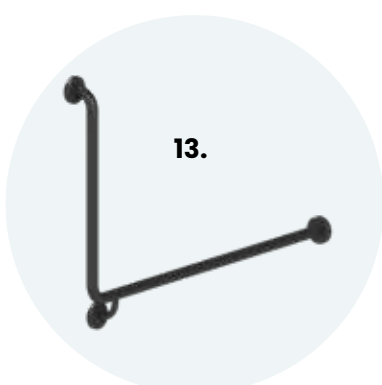

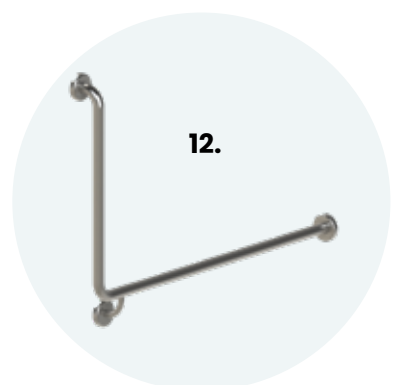

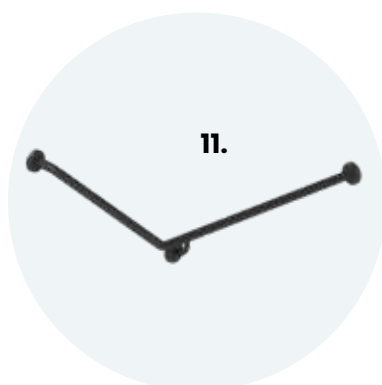

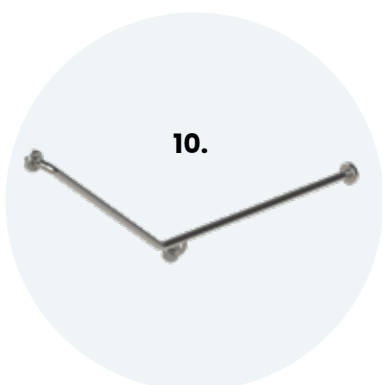

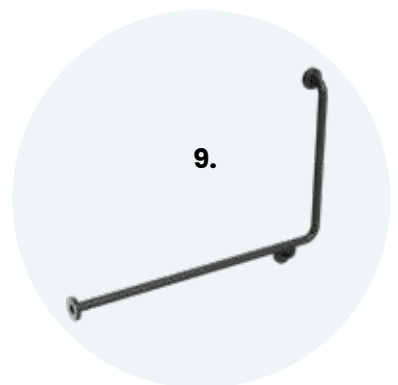

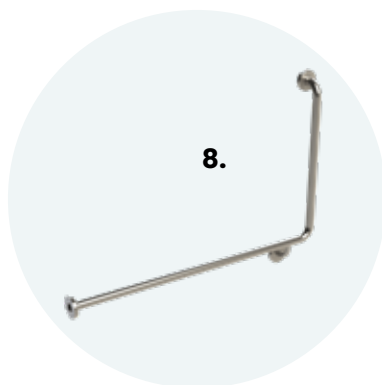

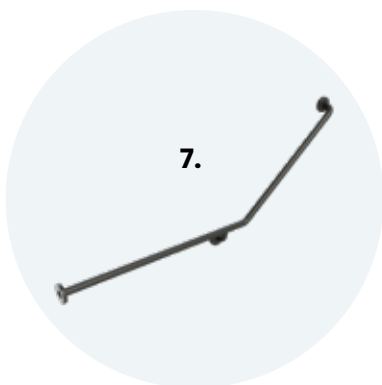

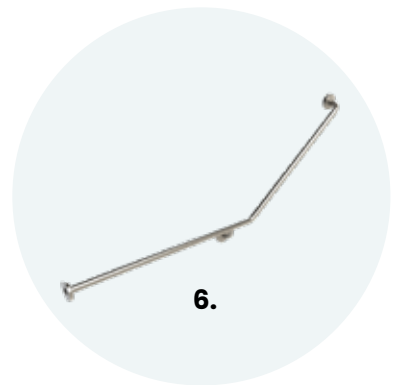

Whether you are looking to provide peace of mind for a loved one, fitting out a care facility, or meeting compliance, our extensive range of quality grab rails and independent living products will assist.

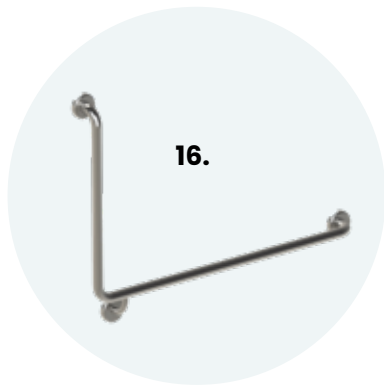

We offer a range of sizes, finishes and colours.

From our facility on the Sunshine Coast, Queensland, we have full control when it comes to manufacturing custom grab rails.

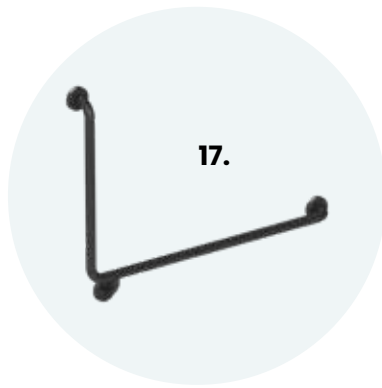

We can manufacture from scratch and/or easily transform and customise standard products into bespoke solutions that meet your specific requirements.

Have a custom project?

Straight, Angled, Floor to Floor, and more grab rails are available on request.

Shower Tracks, Rails and Accessories

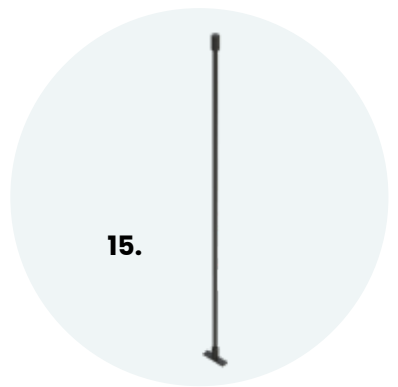

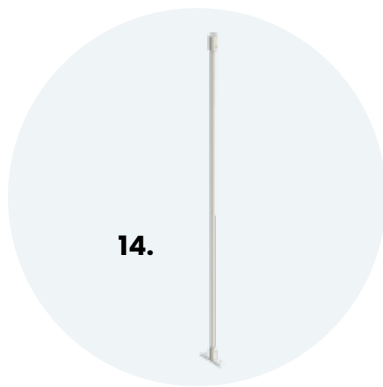

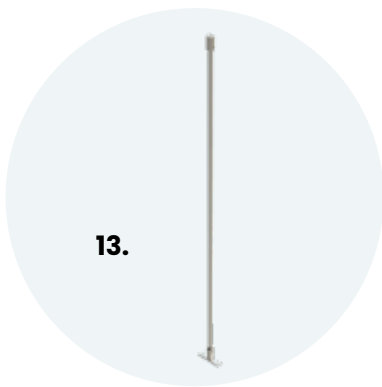

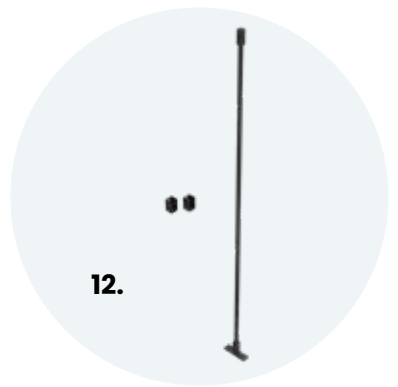

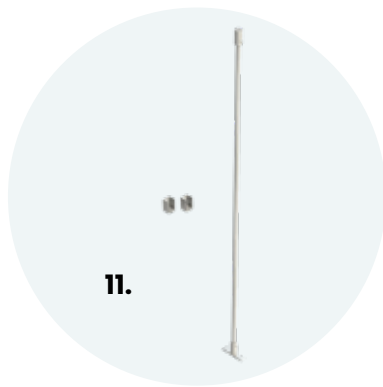

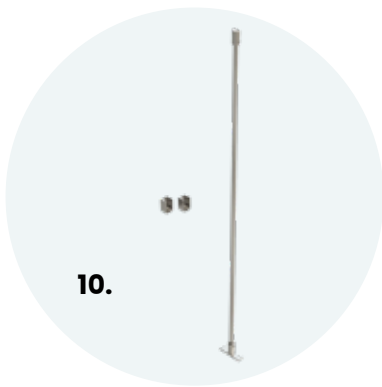

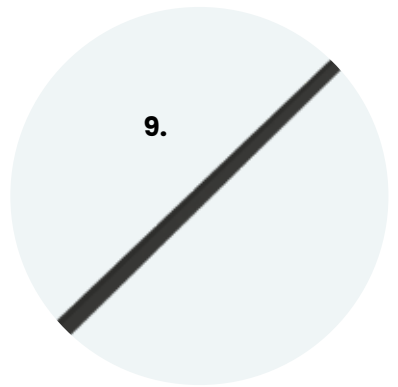

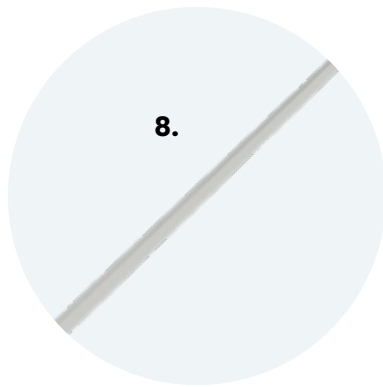

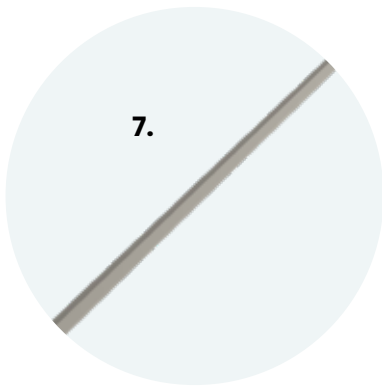

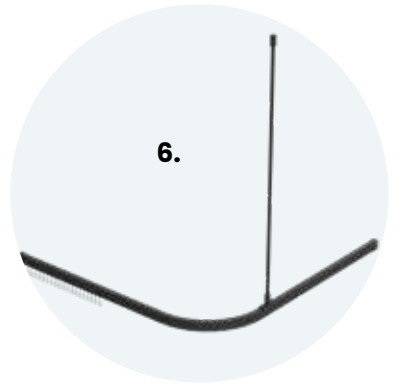

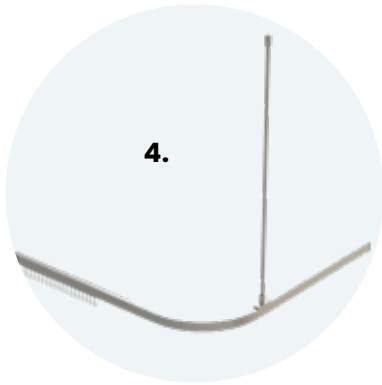

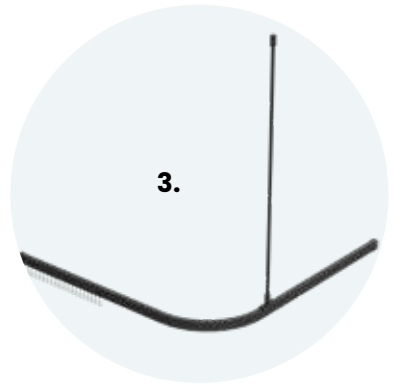

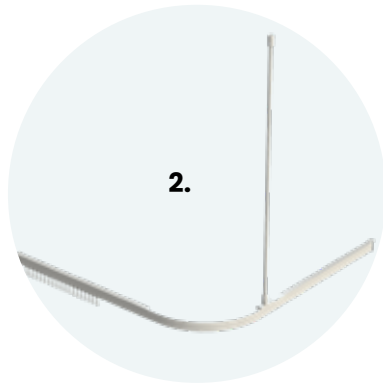

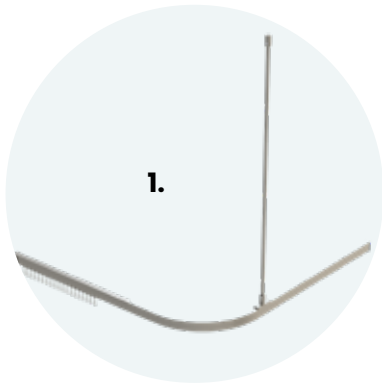

Our range of shower tracks and rails are designed to be easily installed, and are hard wearing.

They are supplied in standard sizes which can be cut down on-site.

We also provide supports, hooks, rings and curtains to complete the job.

Should you require a custom made rail or track, our skilled, local manufacturing team produce excellent work.
